Texas Higher Education Coordinating Board
Community and Technical Colleges Division
Austin, Texas

The Texas Higher Education Coordinating Board does not discriminate on the basis of race, color, national origin, gender, religion, age or disability in employment or the provision of services.

INTRODUCTION

About the Statewide Factbook

The Statewide Factbook contains general statistical information about public community and technical colleges in Texas. It is important for the reader to be aware that data presented in these publications may differ slightly from statistics found in other Coordinating Board reports. Such variances may result from differences in the reporting period covered (semester, annual academic year), the student base included (credit, noncredit, credit/noncredit combined), or methodology.

Organization of the Factbook

Every section of the report begins with a statewide summary, including major observations to be derived; most of the statewide summaries are presented graphically. Following the statewide summary in each section, detail information is presented for institutions in tables.

Section I - Annual Enrollment

	Page(s)
Summary Analysis	1
Unduplicated Enrollment Trend Academic Years 1993-1994 through 2003-2004 (Line Graph)	2
Unduplicated Number of Credit Students Enrolled At Any Time During Academic Year 2003-2004 by Semester Credit Hours Attempted (Bar Graph)	13
Unduplicated Number of Non-Credit Students Enrolled At Any Time During Academic Year 2003-2004 by Contact Hours (Bar Graph)	16
Unduplicated Number of Credit Students Enrolled At Any Time During Academic Year 2003-2004 by Number of Semesters Attended (Table)	19-20
Annual Student Enrollment by Semester (Duplicated) Academic Year 2003-2004 (Table)	27-28
Flex Enrollment by Semester (Duplicated) Academic Year 2003-2004 (Table)	33-34

Section II - Fall Enrollment

Summary Analysis	1
Credit Student Enrollment Trend Fall 1993–Fall 2003 (Line Graph)	2

Section III - First-Time-in-College Enrollment

Summary Analysis	1
First-Time-in-College Enrollment Trend Fall 1993–Fall 2003 (Line Graph)	2
First-Time-in-College Enrollment by Type of Major Fall 2003 (Table)	5-6
First-Time-in-College Enrollment by Tuition Status Fall 2003 (Table)	12-13
First-Time-in-College Enrollment by Full-Time/Part-Time Status Fall 2003 (Table)	14-15

Section IV - Remediation

Summary Analysis	1
First-Time-in-College Students Receiving Remediation Fall 2003 (Pie Chart)	2

First-Time-in-College Students Receiving Remediation Fall 2003 (Tables) 3-4
First-Time-in-College Students Receiving Remediation by Special Populations Fall 2003 (Bar Graph) 12

Section V – First Time in College Cohort Tracking Analysis

Section VI – Transfer and Retention

Section VII – Contact Hours/Semester Credit Hours

Summary Analysis

Contact Hours by Course Type – Table

Contact Hour Completion Rate

Contact Hours FTE, SCH by Course type– Pie Charts

Section VIII - Degrees/Certificates Awarded

Summary Analysis 1-2
Degrees/Certificates Line Graphs 3

Section IX - Faculty and Staff

Summary Analysis 1

Faculty by Ethnicity and Gender 3

Faculty by Age and Years of Service 5

Faculty by Highest Degree (Pie Chart) 7

Faculty by Full Time/ Part Time 8

Faculty by Number of Courses taught (Pie Charts) 13

Course Load Analysis (Tables) 14

Faculty Salaries 22

Section X - Financial Data and Service Area Population

Summary Analysis 1

Tax Base, Collections and Total Assessed Tax Rates – Texas Public Community College Districts Fiscal Year Ended August 31, 2004 by Tax Rate Per $100 Valuation (Bar Graph) 2

Total Education and General Fund Expenditures – Texas Public Community and Technical College Districts/Systems Fiscal Year Ended August 31, 2004 (Bar Graph) 5

Federal Financial Assistance – Texas Public Community College Districts by Type Award Fiscal Year Ended August 31, 2004 (Pie Chart) 8

Service Area/Taxing District Population (Table) 13-14

Section XI - Placement Data

Summary Analysis
Placement Data

Appendix

Explanatory Notes 1

Section I:

Annual Enrollment

Annual Enrollment

Annual Enrollment reflects the total number students attending community, state and technical colleges during an academic year. It should be noted that a person may attend (be a student) more than one institution during an academic year. Although the enrollments for institutions represent unduplicated counts for the academic year, aggregation of enrollments for all institutions usually results in some duplicated headcounts at the statewide level.

- Academic students accounted for 47 percent of community, state and technical colleges (CTC) enrollments during 2003-2004, while technical students accounted for 30 percent and continuing education students for 23 percent.
- More females (56 percent) than males (44 percent) attended CTCs during 2003-2004 academic year.
- While the majority of student enrollments are White (51 percent), that share continues to shrink as Texas' demographics change. Hispanics now make up one-fourth of CTC student enrollments (28 percent), while Blacks represent about one-eighth (12 percent). Other ethnic groups represent about 7 percent of CTC student enrollments.
- In-district residents account for half of CTC student enrollments (52 percent).
- Forty-six percent of CTC students were identified in a special populations category.
- More than one-third (35 percent) of CTC credit students enrolled for six semester credit hours (SCH) or less during academic year 2003-2004. Over two-thirds (69 percent) enrolled for 15 SCH or less. Only 10 percent of credit students enrolled for more than 27 SCH during academic year 2003-2004.
- Among non-credit students, contact hours were concentrated at the extremes -- most students (67 percent) enrolled either for more than 55 contact hours, or between eight and 23 contact hours. However, 8 percent enrolled for fewer than eight contact hours.

Section II:

Fall Enrollment

Fall Enrollment

Fall enrollment is defined as the number of students who are attending classes as of the census date (12th class day) of the fall term and who are reported on the Coordinating Board's CBM001 report. During the past 11 years, enrollment in community, state and technical colleges statewide has increased 32 percent, from 407,382 in fall 1993 to 536,005 in fall 2003. Fall enrollment figures are the numbers most often used when enrollment is discussed.

- Student enrollment among Whites, which had been declining in prior years, continued to increase in 2003-2004. Enrollment among Blacks and Hispanics showed substantial, consistent increases through the 1990s and into the 2003-2004 academic year. Black student enrollments increased 48 percent during the 11-year period ending 2003-2004, while Hispanic student enrollments increased 76 percent during the same period.

- While the proportion between male and female enrollments remained stable over the 11-year period, both genders enjoyed steady increases in enrollments during 2003-2004.

- Academic majors constitute a larger share of total enrollments (61 percent) than technical majors (39 percent).

It is important to note that community, state and technical colleges also offer courses that begin after the census date. Although, some students take such courses during the fall term, they are not counted toward the enrollment of that term; rather, they are reported as "flexible entry" students in the following spring term.

First-Time-In-College Enrollment

Fall Enrollment of First-Time-in-College Students

First-Time-in-College (FTIC) enrollments reflect the number of students enrolling in higher education for the first time. It is often used as the basis for defining a cohort or group of students for tracking purposes. Such cohorts are used to identify the length of time it takes students to graduate or to determine the proportion of new students who obtain a degree or transfer to another institution within a given time frame.

- In fall 2003, the total FTIC enrollments increased by five percent. Academic majors accounted for 64 percent of total FTIC enrollments, and technical majors comprised 36 percent of FTIC enrollments. This compares to 61 percent for academic majors and 39 percent for technical majors in fall 2002.

- For gender, females represented 55 percent of total FTIC enrollments.

- For ethnicity, Hispanics increased from 30 percent in fall 2002 to 33 percent, while Whites decreased from 52 percent in fall 2002 to 50 percent. All other ethnicities remained the same.

- In-district students accounted for 61 percent of all enrollments annually, while out-of-district accounted for 34 percent, non-resident four percent, and tuition exemption waived two percent.

- In fall 2003, 50 percent of FTIC students were full-time, 33 percent enrolled in 6-11 semester credit hours (SCH), and 16 percent enrolled in only 1-5 SCH.

- The proportion of FTIC enrollments identified as special population students in fall 2003 was 62 percent. Much of this representation among FTIC students was due to a large percentage being identified as academically disadvantaged (50 percent).

Section IV:

Remediation

First-Time-in-College Students Receiving Remediation

Community, state and technical colleges play a major role in assuring that students have the academic skills necessary to take college-level courses. In fall 2003, 61,476 first-time-in-college students received remediation instruction.

- In fall 2003, 49 percent of all first-time-in-college students attending a public community, state or technical college enrolled in one or more remedial courses.
- Students declaring technical majors had a lower rate of remedial course enrollment (46 percent) than those declaring academic majors (51 percent).
- Females were somewhat more likely to be enrolled in remedial courses (38 percent) than were males (35 percent).
- White students enrolled in remedial courses 61 percent of the time, compared to 75 percent for Blacks and 70 percent for Hispanics.
- Full-time students received remediation 60 percent of the time, compared to 42 percent of part-time students who took 6-11 semester credit hours (SCH), and 10 percent of students who took 1-5 SCH.

Contact Hours/ Semester Credit Hours

Contact Hours/Semester Credit Hours

Community, state and technical colleges receive state appropriations through a funding formula based upon contact hours. Technical and continuing education programs that train students for the workforce are state-funded. Developmental education is also state-funded.

Community colleges may provide courses within their assigned service areas, which often are larger than their taxing districts (out-of-district courses are outside of the taxing district). Students pay differential tuition based upon their legal residence (out-of-district tuition is paid by students outside of the taxing district).

- During academic year 2003-2004, 31 percent of all contact hours were paid for by out-of-district tuition, but only 17 percent of all contact hours were taught out-of-district. Sixty-eight percent of the contact hours paid for by out-of-district tuition were taught in-district.

- At 12 of the community, state and technical colleges, 50 percent or more of all contact hours were taught out-of-district. Nine of the colleges taught more than 12 percent of all contact hours at a correctional institution. Four of the colleges taught more than 11 percent of all contact hours at a military base or other educational institution. Twenty-four of the colleges taught more than 5 percent of all contact hours via instructional telecommunications.

- At 18 of the institutions, 50 percent or more of all contact hours were paid for with out-of-district tuition (including non-resident and tuition exemption/waivers). Twenty of the colleges have an out-of-district index score greater than 50, indicating substantial reliance upon out-of-district tuition and courses.

- From academic year 1997-1998 to 2003-2004, there has been steady growth in total contact hours, rising from 199 to 250 million. Academic contact hours account for 63 percent of all contact hours. Technical contact hours represent 25 percent, while workforce continuing education contact hours represent 12 percent of the total.

- Developmental education was 11 percent of the total contact hours, full-time equivalent, and semester credit hours during academic year 2003-2004.

- The statewide Fall-contact hour completion rate increased from 82% in fall 1999 to 84% in fall 2003. During this time period, the percentage of institutions with contact hour completion rates less than 81 percent declined, while the percentage of institutions with completion rates from 81 to 90 percent increased from 53% to 67%. Finally, the percentage of institutions with completion rates greater than 90 percent rosel from 19 to 21 percent.

Note: The institution total contact hours are summarized from different sources and may not match due to reporting variances within tolerances.
*Out-of-District Tuition Status includes non-resident students and students granted tuition exemption/waivers.
**Index values can range from 0 to 100 and represent the relationship between an instituion's Out-of-District course offerings and enrollment. The index value is based upon the sum and the difference of the Out-of-District percentages, with equal weight given to both the sum and the difference.

Note: Out-of-District tuition includes non-resident students and students granted tuition exemption/waivers. Continuing Education contact hours are included as In-District tuition and In-District Course Location.

Section VIII:

Degrees/Certificates Awarded

Degrees/Certificates Awarded

Texas public community, state and technical colleges award academic and technical associate degrees, as well as technical and workforce continuing education certificates. Data on graduation is reported once each academic year and includes awards made from the previous fall through the most recent summer terms.

- Of the 53,967 degrees and certificates awarded in 2003-2004, 59 percent were associate degrees and 41 percent were certificates. Technical awards constituted 64 percent, academic awards 34 percent, and workforce continuing education awards 2 percent of all degrees and certificates awarded. Females earned 58 percent of degrees and certificates and males earned 42 percent. Whites earned 51 percent of degrees and certificates, Hispanics earned 29 percent, Blacks earned 13 percent, while other ethnicities (Asian, Native American, International) earned 6 percent and unknown earned 1 percent.

- The total number of degrees and certificates awarded grew 48 percent from 1994-1995 to 2003-2004. Technical certificates accounted for 28 percent of the growth over the 11-year period, academic associate degrees accounted for 49 percent, and technical associate degrees accounted for 11 percent, while academic and workforce continuing education certificates contributed 12 percent of the growth.

- Males awarded certificates accounted for 34 percent of the growth, while female accounted for 31%. Females awarded associate degrees accounted for 35 percent of the growth over the period, and males awarded associate degrees contributed 26 percent.

- Whites awarded certificates accounted for 27 percent of the growth, Hispanics awarded certificates accounted for 43 percent, Blacks awarded certificates accounted for 20 percent, and other ethnicities awarded certificates contributed 10 percent. Whites awarded associate degrees accounted for 21 percent, Hispanics awarded associate degrees accounted for 52 percent, Blacks awarded associate degrees accounted for 16 percent, and other ethnicities awarded associate degrees accounted for 10 percent of the growth in the last eleven years.

Section IX:

Faculty and Staff

Faculty and Staff

Community, state and technical college faculty are more diverse than in many other professions, but lag behind the representative diversity of their students. The typical faculty member is an older degreed professional working part-time teaching one or two classes.

- Of the 30,959 faculty members who taught during the 2003-2004 academic year, 50.4 percent were male, 49.6 percent were female, 77 percent were White, 12 percent were Hispanic, 7 percent were Black, and 4 percent were other races and ethnicities.

- The average faculty member was 48 years of age, and had taught for seven years, including six years at their current college.

- Faculty members holding a doctorate comprised 12 percent of all faculty, 16 percent of full-time faculty, and 11 percent of part-time faculty. Masters recipients represented 56 percent of all faculty, 58 percent of full-time faculty, and 55 percent of part-time faculty. Similar percentages for other degree holders were: Bachelor (17, 13, 18); Associate (6, 8, 5); Certificate or less (1, 2, 1); and no degree (8, 4, 9).

- Seventy percent of faculty members were part-time, while 30 percent were full-time for the entire year. Part-time faculty taught 44 percent of the instructional load (as represented by full-time equivalent calculations for the entire year) compared to 56 percent for full-time faculty.

- During fall 2003, 26,592 faculty members taught at least one course. Each faculty member averaged 3.1 courses, 82 semester credit hours, and 1,765 contact hours.

- For the same semester, 11,466 faculty members were assigned to teaching for more than half-time, averaging 5 courses, 130 semester credit hours, and 2,823 contact hours. A third of these faculty members taught three or fewer courses, a third taught four or five courses, and a third taught six or more courses.

- The average faculty salary for full-time faculty during Fiscal Year 2004 (9 months) was $38,353. The lowest salary was $22,177 and the highest salary was $64,649.

Note: Faculty numbers are headcounts. Full-Time Equivalent (FTE) numbers are a proxy for course load (derived from CBM008 percent of time). Index for part-time represents the institution's reliance upon part-time faculty. The index may range from 0 to 100, and is derived from the average of the percent part-time faculty and the percent part-time FTE.

Financial Data
And
Service Area Population

Financial Data and Service Area Population

Community colleges receive financial support from local taxing districts, state appropriations, and federal financial assistance. The Lamar State Colleges and the Texas State Technical Colleges rely upon additional state appropriations in lieu of local taxes. The amount of each type of financial support received by a community or technical college may vary widely depending upon the size of the institution, the wealth of the local community, and the wealth of the student population.

- The state of Texas community college district local tax base (net assessed valuation) totaled $723 billion in fiscal year 2004. The tax base at individual districts varied from $65 million to $133 billion, with a median of $3.9 billion. The tax rate per 100 dollars of valuation ranged from 1 to 28.6 cents, with a median of 14.3 cents. About half of the districts assessed a tax rate between 9 and 18 cents.

- The taxes collected totaled $835.1 million, and varied from $171,259 to $119 million, with a median of $5.7 million. Much of the variability in local tax support can be attributed to the size of the institution. Adjusting the total taxes collected by the number of full-time equivalent (FTE) students narrows the differences among districts. The total taxes collected per FTE varied from $94 to $5,774, with a median of $1,804. About half of the districts collected taxes between $501 and $1,900 per FTE.

- Federal financial assistance totaled $601.1 million, and ranged from $1 to $72.1 million, with a median of $7.2 million. Pell grants to students accounted for 70 percent of the total. Vocational education basic grants were 5 percent of the total, while Tech-Prep grants was 1 percent, and other assistance totaled 24 percent. Eighteen districts (36 percent) did not receive a Tech-Prep grant. The average FTE student received $1,678 in federal assistance, composed of a $1,167 Pell grant, a $82 Vocational education basic grant, a $19 Tech-Prep grant, and $410 in other assistance.

Section XI:

Placement Data

Placement Data

Key outcome measures for community and technical college students include workforce participation and transfer to other colleges and universities. The process used to collect this data is the Coordinating Board's Automated Student and Adult Learner Follow-up System (ASALFS), which tracks students who transfer to Texas public colleges and universities or who obtain in-state employment that is covered by the Texas Workforce Commission Unemployment Insurance Quarterly Reports. Typically, about 85 percent of students are located through the automated data-matching process. This process does not locate students who move out-of-state, transfer to private colleges or universities, are self-employed, or are employed in a variety of federal, military, or civil service areas.

- Of the 2003-2004 graduates (associate degree and certificate recipients), 89 percent were found to be employed. Transfer data indicate that 21 percent of graduates continued to attend Texas public colleges or universities. For both categories combined, 89 percent of the graduates were located in either employment or additional education through the ASALFS process.

- Of the 2003-2004 cohort, 16 percent of the graduates of academic programs transferred to other colleges but were not located in employment directly after receiving their awards. For technical and workforce continuing education award recipients, 5 percent transferred to other colleges and were not located in employment directly after receiving their awards. For graduates who did not transfer, 63 percent of the technical and workforce continuing education award recipients were located in employment compared to 26 percent of the academic award recipients. However, 91 percent of graduates of academic programs and 89 percent of technical and workforce continuing education award recipients were located in either employment or additional education through the ASALFS process.

Since about 10 percent of graduates are not located through the ASALFS process, the CB116 Supplemental Follow-up process provides the community and technical colleges an opportunity to survey the missing graduates. Typically, an additional 5 percent of the students are located through the supplemental survey process.

Appendix

Explanatory Notes

Workforce education students are those with type majors 2 (technical), 3 (tech-prep), or 4 (continuing education).

Credit academic: type major 1 (academic) on CBM001.

Credit technical: type major 2 (technical) or type major 3 (tech-prep) on CBM001.

Non-credit workforce education: type major 4 (continuing education) on CBM00A.

Annual Enrollment Unduplication Process: CBM001s from fall 2003, spring 2004, summer I 2004, summer II 2004 and CBM000As from the 1st quarter 2003, 2nd quarter 2004, 3rd quarter 2004, 4th quarter 2004 were combined into one file and unduplicated based on unique FICE/SSN combination. For Type Major, Tech-Prep (3) supercedes Technical (2), which supercedes Continuing Education (4), which supercedes Academic (1). Flex students reported in each semester are included. Where multiple records for a specific student have the same highest value for Type Major, the record with the most recent semester was used and a regular enrollment record was used over a flexible entry record.

First-time-in-college (FTIC): A student with the FTIC code (000001 – CBM001 Item # 9) in fall 2003, including those with who were reported the previous Summer (summer I 2003 or summer II 2003) with the FTIC code who returned to the same institution in fall 2003 regardless if they were coded as an FTIC in fall 2003. Flex students were excluded from FTIC cohorts.

Index for Part-Time Faculty: ((((Part-Time Faculty)/(Total Faculty)) + ((Part-Time FTE)/(Total FTE)))/2) x 100
