Desk Review Comments and Approvals

Initial Review Date	Initial THECB Reviewer
4/4/2011	Johnnie Johnson
Item #	**Comments/Observations**
1	A review of the A-133 filing certification indicated significant deficiencies. A Copy of the State of Texas filing certification for fiscal period ending 08/31/2010 is on file.
2	Copies of findings noted, Management Responses and Corrective Action Plans from the Federal Portion of the State wide audit for fiscal period ending 08/31/2010, are on file.
3	The subrecipient did not budget any of the award funds toward equipment. Therefore, no capital equipment reimbursement requests were received from the subrecipient.
4	In an effort to verify that hours' data was correctly reported, a sample of seven Progress Reports representing 50% of the year-to-date reports submitted was chosen. Reimbursement documentation, previously submitted by the subrecipient, was reviewed. The initial review of this documentation indicated that the hours reported on the institution's Progress Reports, for the months of November 2010, December 2010 and January 2011, did not match the hours reported on the reimbursement documentation. A copy of the hours' calculation worksheet was e-mailed to the subrecipient with a request to validate the accuracy of the worksheet or submit additional documentation to validate the hours reported for the months in question. The subrecipient provided an immediate response to the Desk Review inquiry. Written explanations were provided for the difference between the hours on the reimbursement documentation and the Progress Reports. The hours' validation worksheet was revised with the additional information provided in the subrecipient's e-mails received on 04/04/11 and 04/20/11. The actual ARRA hours worked, as reported by the subrecipient for the period tested, were validated. An Excel worksheet verifying actual hours reported and the supporting documentation are on file.
5	Based on the budget information in the ARRA Financial Tracker, the approved budget plan was being followed and the project expenditures were not over or under the 10% requirement. No budget modification was required.
6	Reviewed seven Reimbursement Requests which represented 50% of the year-to-date requests submitted and paid. No significant issues were found regarding the Reimbursement Request data submitted by the subrecipient.
