Desk Review Comments and Approvals

Initial Review Date	Initial THECB Reviewer
3/30/2011	Johnnie Johnson
Item #	**Comments/Observations**
1	A review of the A-133 filing certification indicated significant deficiencies. A Copy of the State of Texas filing certification for fiscal period ending 08/31/2010 is on file.
2	Copies of findings noted, Management Responses and Corrective Action Plans from the Federal Portion of the State wide audit for fiscal period ending 08/31/2010, are on file.
3	The subrecipient's entire award was budgeted toward equipment. Reviewed documentation submitted with the Reimbursement Requests for the months of February, April, June and July of 2010 and chose an equipment sample for review. A sample of ten equipment purchases which included controlled assets was selected from the reimbursement documentation. A request for additional information which included an inventory listing for ARRA funded capital equipment and controlled assets purchases was sent to the subrecipient. Final documentation as requested was received from the subrecipient on 05/16/11. All additional information received from the subrecipient was examined. The documentation details verified invoice amounts, receipts and payments of the ARRA funded purchases and was accepted. The subrecipient's inventory list verified that the capital equipment item and controlled assets tested were designated as ARRA funded purchases. Electronic copies of the ARRA inventory report and other supporting documentation submitted by the subrecipient are on file.
4	No award funds were budgeted toward Personnel/Salaries. There was no request for salaries and no jobs data was reported to THECB.
5	Based on the budget information in the ARRA Financial Tracker, the approved budget plan was being followed and the project expenditures were not over or under the 10% requirement. No budget modification was required.
6	Reviewed four Reimbursement Requests which represented at least 50% of the year-to-date requests submitted and paid. No significant issues were found regarding the Reimbursement Request data submitted by the subrecipient.
