Item #	**Comments/Observations**
1	A review of the fiscal year 2010 A-133 filing certification indicated significant deficiencies which included institutions of higher education. However, a search of the SAO Federal Portion of the Statewide Single Audit Report indicated The University of North Texas Systems was not listed on the Schedule of Findings and Questioned Costs. A Copy of the State of Texas filing certification for fiscal period ending August 31, 2010 is on file.
2	The subrecipient was not listed on the Schedule of Findings and Questioned Costs of the Federal Portion of the Statewide Single Audit Report for fiscal year ending August 31, 2010. A copy of this report is on file.
3	No ARRA award funds were budgeted toward equipment expense. Therefore, no equipment reimbursement requests were received from the subrecipient.
4	In an effort to verify that hours data was correctly reported, a sample of five Progress Reports was chosen for review. The Desk Review sample included the months of November and December of 2010 and January through April of 2011. No salary related expenses were requested in January 2011; therefore, no hours were tested for the month of January 2011. The Desk Review Jobs' reporting test could not be performed because no ARRA hours were reported by the subrecipient for the months selected for testing. A request for additional information was e-mailed to the subrecipient. The subrecipient's representative was asked to submit ARRA hours paid and supporting documentation for the periods included in the Desk Review sample and any other ARRA hours not previously reported to THECB. The subrecipient submitted documentation by e-mail for un-reported hours as requested on 06/30/2011 The hours information was forwarded to appropriate THECB ARRA grant staff for updating in the THECB system. Electronic copies of documentation submitted by the subrecipient and Desk Review correspondence are on file.
5	Based on the budget information in the ARRA Financial Tracker, the approved budget plan was being followed and the project expenditures were not over or under the 10% requirement. No budget modification was required.
6	Reviewed five Reimbursement Requests which represented approximately 50% of the year-to-date requests submitted and paid. No significant issues were found regarding the Reimbursement Request data submitted by the subrecipient.
