

## Tuning Oversight Council for Engineering

January 7, 2011

### **\*\*Discussion Questions\*\***

1. Exploration of Pressing Issues
  - a. Are there any issues which have arisen in your respective committees which will ensure a close collaboration among community colleges and participating universities toward the integration of a seamless course transfer? Are these issues transferable among the various engineering disciplines?
  - b. Are there any issues (common or unique to a specific discipline) which have arisen in your respective committees which will prove problematic in establishing a seamless course transfer and alignment?
  - c. What are your suggestions for establishing solutions for part (b)?
2. What role do you see this committee having with respect to ensuring continuation of the engineering transfer structure crafted by the THECB/Lumina Tuning Oversight Council for Engineering?
3. What alternative processes could there be to ensuring continuation of the engineering transfer structure crafted by the THECB/Lumina Tuning Oversight Council for Engineering?
