1998-2002 High School Graduating Classes**

- Changes in pass rates for the high school graduating classes from 1998 through 2002 reflect the following changes to the Texas Academic Skills Program (TASP):
 - Effective fall 1995: The THECB increased the passing score on the reading and math sections of the TASP Test from 220 to 230. The THECB also lowered the TASP exemption cut-off scores on the Texas Assessment of Academic Skills (TAAS), ACT, and Scholastic Assessment Test (SAT) to meet a legislative mandate to exempt up to 15 percent of the entering freshman class from TASP testing. Therefore, fewer college-ready students from the 1995 high school class took the TASP Test, which resulted in a lower pass rate for the cohort of students that took the test.
 - Effective fall 1997: The THECB lowered the TASP exemption cut-off scores on the TAAS, ACT, and SAT to meet a legislative requirement to exempt students whose scores on these tests indicated a 95 percent probability of passing the TASP Test.
 - Effective fall 1998: Students were allowed to take an approved alternative test for TASP purposes.
 - Effective fall 1998: Entering students were required to take a test for TASP purposes *before* enrolling in collegiate-level course work at public higher education institutions, rather than within nine semester credit hours of admission.
 - Effective September 1, 2001 to August 31, 2003: Texas Academic Skills Program exemptions, based on high school graduates with 3.5 or above GPA in Recommended or Advanced Curriculum were allowed.
- Report data may not reflect fully the preparedness level of a high school's graduating class:
 - Some students who enrolled in public higher education institutions did not take the TASP Test prior to September 2003.
 - Students who entered out-of-state or independent Texas colleges or universities are not included.
 - Students who met state standards on the TAAS, the ACT, the SAT, or high school graduates with 3.5 or above GPA in Recommended or Advanced Curriculum were exempt from taking the TASP Test.
 - Inaccurate or incomplete data may have prevented successful matching of records from the various data sources used to compile this report.
 - Students could take developmental education before they were required to take the TASP Test.

- Changes in pass rates with exemptions for the high school graduating classes from 1999 through 2002 reflect the following changes to the Texas Academic Skills Program (TASP):
 - Effective fall 1995: The THECB increased the passing score on the reading and math sections of the TASP Test from 220 to 230. The THECB also lowered the TASP exemption cut-off scores on the Texas Assessment of Academic Skills (TAAS), ACT, and Scholastic Assessment Test (SAT) to meet a legislative mandate to exempt up to 15 percent of the entering freshman class from TASP testing. Therefore, fewer college-ready students from the 1995 high school class took the TASP Test, which resulted in a lower pass rate for the cohort of students that took the test.
 - Effective fall 1997: The THECB lowered the TASP exemption cut-off scores on the TAAS, ACT, and SAT to meet a legislative requirement to exempt students whose scores on these tests indicated a 95 percent probability of passing the TASP Test.
 - Effective fall 1998: Students were allowed to take an approved alternative test for TASP purposes.
 - Effective fall 1998: Entering students were required to take a test for TASP purposes *before* enrolling in collegiate-level course work at public higher education institutions, rather than within nine semester credit hours of admission.
 - Effective September 1, 2001 to August 31, 2003: Texas Academic Skills Program exemptions, based on high school graduates with 3.5 or above GPA in Recommended or Advanced Curriculum were allowed.

- Report data may not reflect fully the preparedness level of a high school's graduating class:
 - Some students who enrolled in public higher education institutions did not take the TASP Test prior to September 2003.
 - Students who entered out-of-state or independent Texas colleges or universities are not included.
 - Students who met state standards on the TAAS, the ACT, the SAT, or high school graduates with 3.5 or above GPA in Recommended or Advanced Curriculum were exempt from taking the TASP Test and were assumed to have passed the test for this analysis.
 - Inaccurate or incomplete data may have prevented successful matching of records from the various data sources used to compile this report.
 - Students could take developmental education before they were required to take the TASP Test.
 - For 1998-1999, exemptions were not disaggregated for (1) academic and (2) non-academic exemptions and waivers. Thus, test performance took precedence over all exemptions, and all exemptions/waivers without test performance were counted as "pass."
 - For 1999-2000 and later, exemptions were disaggregated for (1) academic and (2) non-academic exemptions and waivers. Thus, test performance took precedence over non-academic exemptions and waivers, and all academic exemptions were counted as "pass."
