The Texas Higher Education Data (THED) website offers policymakers, students, parents, K-12 educators, media, researchers, and faculty a collection of education data designed to help shape policy and develop initiatives that will move Texas closer to achieving the goals of the 60x30TX strategic plan and lay the foundation for a globally competitive workforce.

Visit Texas Higher Ed Data: www.txhigherereddata.org
DATA LINKS

To access data by topic area, select from options organized under the following main headings:

**Overview (Quick Links)**
The Overview section contains frequently requested data. Examples of topics of interest found here include the 60x30TX Texas Higher Education Strategic Plan, comparisons of enrollment, degrees awarded throughout the state, a link to the Higher Education Almanac, and other education topics and facts compiled by THECB.

**Online Applications**
This section contains links for accessing interactive reports and queries. Some of the individual applications include:

**Texas Higher Education Accountability System** – [www.txhigheredaccountability.org](http://www.txhigheredaccountability.org)
The Texas Higher Education Accountability System provides data on the state of higher education in Texas. It is organized around the goals and targets of 60x30TX. The Accountability System provides data for public universities and two-year colleges, Texas State Technical Colleges and Lamar State Colleges, health-related institutions, two-year private career colleges, and some non-Texas four-year public universities.

**Online Institutional Resumes** – [www.txhighereddata.org/Interactive/Resumes](http://www.txhighereddata.org/Interactive/Resumes)
The Online Institutional Resumes application provides one-page resumes, which display relevant higher education data and information. This information is specifically tailored for two groups: prospective students, parents, and the public and legislators and other policymakers. Resumes for both groups include information on enrollment, student success, cost, and financial aid.

**Profile Reports Electronically Produced (PREP)** – [www.txhighereddata.org/Interactive/PREP_New](http://www.txhighereddata.org/Interactive/PREP_New)
Data collected from Texas public higher education institutions are summarized into database tables for query access. These summaries of certified data are accessible through the PREP system. Generally, information is available by institution or statewide for selected semesters. The PREP system includes information on enrollment, degrees awarded, declared majors, semester credit hours (SCH), and contact hours for two-year institutions.

**High School to College (P-16) Data**
This section contains college readiness, enrollment, freshman performance, and outcome data by county, school district, and high school. This section also includes a link to the Tracking Postsecondary Outcomes Dashboard, which is an interactive application that graphically displays information about Texas public high school graduates who enroll in Texas higher education in the fall immediately following graduation from high school. It includes higher education enrollment and demographic summaries, persistence patterns, college readiness statistics, and the ability to make comparisons at regional and district levels.
Other Resources
There are many additional data resources publicly available, either on the Texas Higher Education Data website or as stand-alone websites. Some of these resources are listed below.

60x30TX Website – [www.60x30TX.com](http://www.60x30TX.com)
Information about the 60x30TX Texas Higher Education Strategic Plan can be found online at [www.60x30TX.com](http://www.60x30TX.com). This website includes information about the plan and its goals, including insight on the importance of and reasoning behind the plan. From the homepage, visitors can click a link under OUR PLAN, which will open a PDF version of the plan, including an executive summary and details about the goals and targets. Visitors can also view yearly statewide, regional, and institutional progress for each of the goals.

[60x30TX](http://www.60x30TX.com)

Texas P-16 Public Education Information Resource (TPEIR) – [www.texaseducationinfo.org](http://www.texaseducationinfo.org)
The Texas P-16 Public Education Information Resource website is an interagency project managed by the Texas Education Agency (TEA). The reports provided on TPEIR combine multiple data sources, including data from THECB, to produce useful information about Texas public school students from PK through college and into the workforce.

Compare College TX – [www.comparecollegetx.org](http://www.comparecollegetx.org)
Compare College TX is an interactive, mobile-friendly web tool designed to help users learn more about Texas public universities and community colleges. Information provided includes costs, graduation and transfer rates, graduate success, student and class information, and first year earnings.

Launch My Career Texas – [www.launchmycareertx.org](http://www.launchmycareertx.org)
Launch My Career Texas helps students find programs that can lead to well-paying jobs and a good life. The site can be searched by major, school, job, or endorsement.

Texas CREWS – [www.txcrews.org](http://www.txcrews.org)
Texas Consumer Resource for Education and Workforce Statistics (Texas CREWS) is an interactive dashboard tool that provides comparative information about Texas public two- and four-year postsecondary institutions. This website helps parents and students make informed decisions about college.
