<b>*</b>	Data suppressed due to low cell value

# Methodology for the Exit Cohort Reports

---

<b>Cohort</b>	All individuals enrolled in Texas public institutions during FY 20YY
<b>Employment Records</b>	The records were matched with TWC UI wage records and national databases including Office of Personnel Management. Employment was determined if the former student was found working in the 4 <sup>th</sup> quarter 20YY according to the records mentioned.
<b>Enrollment Records</b>	The records were matched with public and private postsecondary enrollment records for predetermined periods of analysis. Pursuit of additional higher education was documented if the former student was found enrolled in the fall semester 20YY.
<b>Industries for Employment</b>	It shows the industries in which the individual was found working. No information about the type of work the individual does is available.
<b>Higher Education Institutions for Enrollment</b>	Institution where students enrolled in the following fall (Fall 20YY) after they left the original institution
<b>CIP Areas for Enrollment</b>	Majors declared by students when they enroll in the following fall (Fall 20YY)
