Texas Public Universities

The Texas Common Application for Freshman Admission and the Texas Common Application for Transfer/Transient/Former Students can be used to apply to any Texas public university (and other institutions that contract to use it). The applications are available on the Internet at www.applytexas.org, where they can be completed and submitted electronically. Paper copies are available in high school counselors' offices and admissions offices of community colleges. You may also obtain an application from the university you wish to attend or download and print it from the web site of the Texas Higher Education Coordinating Board at www.CollegeforTexans.com. Enter the site by choosing "English," then select "Applying for College," then "Texas Common Application."

The majors and major codes for each Texas public university are listed on the following pages. Enter this information on the common application form, Part I, item 20 (Freshman) or item 18 (Transfer). You may fill out the application once, copy it, fill in the name of the university and the major you wish to pursue, and send it to that university. Keep your original to use to apply to other universities. If you have questions about your application, please contact the university to which you are applying.

* See the Texas A&M University Undergraduate Catalog pertaining to your major for the specific science.

** No spring transfer admission.

Notes:

¹ All new students to the Colleges of Architecture, Business, and Engineering enter the lower level.

² The curriculum leading to a professional degree in architecture begins in the four-year undergraduate environmental design degree program. This degree provides entry to the Master of Architecture program.

³ All students seeking elementary teacher certification will complete a baccalaureate degree in Interdisciplinary Studies. There is no major in Secondary Education. All students seeking secondary certification (except those preparing to teach physical education or health) will major in an academic discipline other than education (i.e., mathematics, English, computer science, biology, etc.) and take appropriate course work for teacher certification in the College of Education.

⁴ Freshman applicants who have not decided on a major should indicate General Studies.

⁵ Pre-veterinary medicine is not offered at Texas A&M. If you plan to apply to the Doctor of Veterinary Medicine (DVM) program, you should select a major that would be a good vocational choice if you do not later enter the DVM program. Any major may be selected; however, some curricula more closely parallel courses that must be completed before applying to the DVM program than others.

⁶ Requires PHYS 201 (1301 and 1101) rather than PHYS 218.

⁷ Either ENGL 210 or COMM 203 required, not both.

⁸ COMM 203 not required.

⁹ Requires MATH 151, 152 not MATH 141, 142.

¹⁰ Requires CHEM 102; MATH 141, 151.

¹¹ COMM 203 can substitute for ENGL 210.

¹² Follow Degree Track B for a B.A. degree and Degree Track D for a B.S. degree. COMM 203 not required.

¹³ Select the one Degree Track, A or B, that fits your degree objective (see Degree Tracks).
