1.2 SYNOPSIS OF PROGRAM

In 2017, the 85th Texas Legislature, Regular Session passed the General Appropriations Act, SB 1, Article III, Section 50, 85th Texas Legislature, which directs the Texas Higher Education Coordinating Board (Coordinating Board/THECB) to award grants to existing autism research centers at Texas public and private institutions of higher education for projects in three award categories: 1) Parent-directed Treatment, 2) Board-certified Behavior Analyst Training for teachers/paraprofessionals, and 3) Research, development, and evaluation of innovative autism treatment models.

AGP is funded from a General Revenue appropriation of $8,100,000 to the Coordinating Board. The 85th Texas Legislature direction on categories, funding, and numbers of children served in Article III, Section 50.

Funding will be awarded and distributed to one or more autism research centers at Texas public and private institutions of higher education. Applicants may address one or more of the three categories, with specific funding available for each category.

Parent-directed Treatment – total amount available is $2,250,000 per fiscal year to research centers to serve a combined total of at least 750 children per year through parent-direct treatment methods. Parent-directed treatment models are those which include parents and/or caregivers, including parents, legal guardians, extended family members, and caregivers in the treatment of children with Autism Spectrum Disorder (ASD), supervised regularly by trained professionals. The treatment strategies must be evidence-based, but are not limited to Behavioral Analyst methodologies.

Board-certified Behavior Analyst Training for teachers/paraprofessionals – total amount available is $950,000 per fiscal year to autism research centers to serve a combined total of at least 2,547 children with ASD per year by training teachers and/or paraprofessionals. Teachers/paraprofessionals can be in public or private institutions, teaching grades pre-Kindergarten through 12th grade. The training must include, but is not limited to, Behavioral Analyst methods as certified by the Behavior Analyst Certification Board. Applicants may contract with educational service centers to provide this training.

Innovative Treatment Models, including research, development, and evaluation of innovative autism treatment models. The total amount available is $700,000 per fiscal year to one or more autism research centers to research, develop, and evaluate innovative autism treatment models that provide treatment to the greatest number of children with ASD.
1.3 PROGRAM AUTHORITY

The 85th Texas Legislature appropriated funding to the Coordinating Board in the General Appropriation Act, SB 1, and provided direction about the grant program, available funding, and its use in Article III, Rider 50, 85th Texas Legislature.
