

OVERVIEW

Tuition Deregulation

What are the different types of tuition charged to students enrolled at a public university?

There are three types of tuition:

Statutory Tuition: A tuition charge authorized under Texas Education Code (TEC) §54.051 in an amount determined by the Texas Legislature for resident or nonresident students. Currently, the university rate is set at \$50 per semester credit hour (SCH) for resident students. Higher rates are charged for nonresident students. Tuition for students at community and technical colleges is set by the governing boards within certain statutory parameters.

Designated Tuition: TEC §54.0513 authorizes institutions other than public community colleges to impose on any graduate or undergraduate, resident or nonresident student, an additional tuition charge that the governing board of the institution considers necessary for the effective operation of the institution. This rate varies by institution.

Board Authorized Tuition: A tuition charge authorized under TEC §54.008 for graduate programs. Institutions can set tuition at rates at least twice that of undergraduate tuition, and can set different rates among programs.

What is tuition deregulation?

Prior to 2003, the Texas Legislature had the regulatory authority to set tuition rates, generally mandating that the same statutory and designated tuition rate be charged across the state. In 2003 the 78th Legislature passed HB 3015, amending TEC §54.0513 to allow governing boards of public universities to set different designated tuition rates. There is no upper limit on the amount of designated tuition that a university may charge and the amounts may vary by program, course level, and academic period. Tuition deregulation became effective September 1, 2003, and universities began increasing designated tuition in spring 2004.

What other academic charges are paid by students?

In addition to statutory and designated tuition charges, all students are assessed certain fees:

Mandatory Fees are authorized by statute or by the governing board of an institution, and are charged to a student upon enrollment to provide services available to every student. Examples of such fees are library and laboratory fees, course and incidental fees collected under TEC §55.16(c), and other mandatory fees as authorized by the governing board of the institution.

Course Fees are mandatory fees required of all students enrolled in a particular course, such as materials for a chemistry lab, or a discretionary fee required of students in a given course, or for students participating in a special activity, such as a parking fee. This includes fees for state-funded continuing education courses.

Total Academic Charges are the total of all tuition, mandatory, and course fee charges for a student taking a given number of SCHs. It does not include textbook or other education related costs not directly tied to institutional charges.

How much have tuition and fees increased since tuition deregulation?

From fall 2003 through fall 2013, the statewide average total academic charges for a student taking 15 SCHs at a public university has increased by 104 percent. (See attached Academic Charges chart.)

What financial assistance set-asides were required in HB 3015?

While authorizing the increase in designated tuition, HB 3015 also added TEC Sections 56.011 and 56.012, which require universities to set-aside at least 15 percent of the amount of resident undergraduate and graduate designated tuition charges in excess of \$46 per SCH. This set-aside is to be used to provide financial assistance for undergraduate or graduate students and is intended to lessen the impact of tuition deregulation. Universities are also required to set-aside an additional 5 percent of undergraduate resident designated tuition over \$46 per SCH to fund the Texas B-on-Time Student Loan Program. The total financial aid set-asides (not including BOT) for fiscal years 2005-2013 was \$945 million for undergraduates and \$195 million for graduate students.

What have universities reported on spending the additional tuition revenue?

Universities report that tuition increases are providing a growing share of their operational income, using funds to recruit and retain faculty and staff, increase academic course offerings, lower student/teacher ratios, enhance student services such as academic and career counseling, maintain and improve facilities, pay increasing utility costs, service building debt, and provide additional financial aid to lower-and-middle-income students.

How are universities held accountable for deregulated tuition?

The Legislature provided that, as a condition of tuition deregulation, each university shall make satisfactory progress towards the goals provided in its master plan for higher education and *Closing the Gaps*, and the state's plan for higher education. HB 3015 and section 54.0515 requires each university to meet acceptable performance criteria, including measures such as graduation rates, retention rates, enrollment growth, educational quality, efforts to increase diversity, opportunities for financial aid, and affordability.

TEXAS HIGHER EDUCATION COORDINATING BOARD TUITION AND FEES DATA

The tuition and fee data reported on the following pages reflects the average amounts charged to resident undergraduate students enrolled in 15 semester credit hours (SCH) per semester at Texas public universities. Amounts reported include statutory tuition, designated tuition, average mandatory fees and average college course fees.

A student's actual charges may vary based on the student's classification and level of enrollment, the college the student attends within the university, the student's specific personal circumstances, or for other reasons deemed appropriate by the institution.

FOOTNOTES:

- * All data was reported under definitions for tuition and fees adopted January 2006 by the Coordinating Board.
- (1) Texas A&M University implemented flat-rate tuition plans in Fall 2005.
- (2) The University of Texas at Arlington implemented flat-rate tuition plans in Fall 2006.
- (3) The University of Texas at Austin implemented flat-rate tuition plans in Fall 2005.
- (4) University of North Texas implemented flat-rate tuition plans in Fall 2007.

DATA AMENDMENT:

NOTE: For the purposes of calculating the change in tuition and fees between Fall 2003 and Fall 2013, the statewide averages exclude those universities that did not exist in Fall 2003 (Texas A&M University-Central Texas, Texas A&M University-San Antonio, and the University of North Texas-Dallas).

Note:

The Total Academic Charges column is the sum of Statutory Tuition + Designated Tuition + Mandatory Fees + Avg Coll and Course Fees for each school. The bottom of the column is the average (excluding zeroes, if any) of the Total Academic Charges of each school. The Fall 2012 + Spring 2013 column is the sum of the Total Academic Charges of each semester. The bottom of that column is the average (excluding zeroes, if any) of the total of Fall 2012 and Spring 2013. Thus, adding the Fall 2012 to the Spring 2013 averages will not equal to the average of the sums of the Fall 2012 + Spring 2013 totals.
